

End-to-End Solutions to Secure Your Critical Networks and Systems

Platform Solutions, Inc.'s security offerings encompass industry best practices to design and implement the infrastructure and policies that allow companies to limit their security risks. We use best-of-breed solutions that allow you proactively prevent — or to nimbly react to — new viruses and system exploits as they are discovered.

We create plans, processes and policies that enable organizations to manage and control their information security risk. We achieve a comprehensive solution by assessing your current security environment and developing a capability to respond and recover from disruptive security threats. We specialize in securing:

- Network infrastructure
- Enterprise applications
- Server and desktop systems
- Converged networks
- Wireless networks
- E-commerce infrastructure

Security Policies

We can help you create security policies to govern technology configuration, management and deployment and to comply with industry protocols like HIPAA, PCI and Sarbanes-Oxley.

Network Security

We design and deliver secure networks for businesses of any size.

Host Security

We implement a myriad solutions to secure, patch and monitor Windows, UNIX and Linux servers.

Desktop / Email / Spam Security

We secure desktops, safeguard mail delivery, and reduce total cost of ownership.

We are prepared to do more than just implement security technology; we can consult on your total security solution from policies and procedures to rights and access. Our broad range of professional services includes: planning, designing, implementing, supporting, and maintaining the security infrastructure we develop based on your unique needs.

About Platform Solutions

Platform Solutions has delivered enterprise-level IT solutions to a wide variety of organizations since 2000. We specialize in advanced networking, unified communications, security, storage, virtualization, and application infrastructure solutions. As a value-added technology reseller, we partner with only best-of-breed industry leaders that meet the business needs of our clients. We use our expertise to deliver streamlined solutions customized to the unique needs of your business. Leveraging leading deployment and management methodologies from leaders such as Cisco, Microsoft and the Project Management Institute, we ensure you receive the technology solutions you require, delivered with the highest level of service.

We can provide the best-in-breed technologies to proactively secure your critical networks and systems. To learn more, call us today!

Why Platform Solutions?

Key Benefits

- Certified technical team with extensive real-world experience
- Strong focus on customer service and satisfaction
- Broad technology profile
- Partnerships with industry-leading technology manufacturers
- Knowledge and understanding of manufacturer programs and promotions

Complementary Solutions

Advanced Networking

- Networked storage and enterprise computing integration
- Service-provider class network design and implementation
- Unified communications
- Network security
- Network management
- Wireless network assessment, design and implementation

Storage

- Information lifecycle management
- Storage compliance requirements
- Optimized WAN storage
- Enterprise backup
- Disaster recovery
- Business continuity

Virtualization

- Server and desktop virtualization strategies
- Data center
- Storage integration

Application Infrastructure

- Email and directory services
- Application delivery
- Server monitoring technology
